Mike,

I had a couple quick information items I wanted to pass on. I missed you after the 8:00 meeting and your schedule looks pretty tight this morning or I would have stopped by.

First, RES scheduled a meeting with you for this afternoon at 4:00 to discuss SOARCA. This meeting is not a substitute for your February 25 periodic status update; rather, the purpose is to discuss the schedule of the project and the extension request. I'm planning to attend, but I going to be sitting in on their Bern Stapleton's briefing with the Chairman at 3:30, so I might be a few minutes late.
